

KENYON'S VETO PLAN MEETS WITH FAVOR

Senator Gets Many Letters Urging More Power Be Given to President.

WOULD AID ECONOMY Amendment to Constitution to Be Drawn in Most Careful Manner.

PUBLIC INTEREST ROUSED Practice of Burying Important Laws in Supply Bills Would Be Stopped.

Special Dispatch to THE NEW YORK HERALD.

New York Herald Bureau, Washington, D. C., July 9. Widespread approval of the proposal to give to the President power to veto single items in appropriation bills through the adoption of an amendment to the Constitution is being manifested in scores of letters received by Senator Kenyon (Iowa), he told THE NEW YORK HERALD to-day.

Apparently the public has been quick to sense the value of this delegation of power, not only as a measure of economy, but also in putting a check on the obvious defect now so common of adding legislative "riders" to appropriation bills.

Senator Kenyon has been prevented from preparing the proposed amendment because of a multitude of other legislative cares pressing for attention. He has been giving the matter careful study and finds that the provisions of the proposed amendment require a good deal of study, so that when it is finally presented to Congress and the country it will stand the test of legality, which every constitutional amendment must undergo to be effective.

Just as soon as I can complete the necessary examination of the Constitution itself and determine the precise phraseology that must be employed to cover the subject," said Mr. Kenyon to-day, "I shall introduce the amendment and press for its consideration. I have been surprised beyond measure at the interest it has attracted. Although the first announcement of my proposal was made in THE NEW YORK HERALD, I find that it must have been copied widely in other papers in various parts of the country, for I have received letters from practically every section commending it and urging its submission to the people.

"The authors of these letters have been men from many different walks of life, including doctors, lawyers, college professors and business men."

Senator Kenyon is not yet prepared, he said, to make public the text of these letters, although he may give some of them out later for publication. He finds a strong sentiment among lawyers, he said, in favor of empowering the President to veto "legislative riders" in appropriation bills as well as authorizing the Executive to veto single items of appropriations.

The practice of adding these legislative "riders" greatly adds, it is contended, to the difficulty of finding where the law is and what it is. It complicates the adjustment of many legal questions, it is said, for the reason that the inclusion in an appropriation bill of an important statute, in many instances conceals the fact that such a law is on the statute books.

Senator Kenyon is thoroughly convinced that his amendment should be so drafted as to give to the President the right to veto these "riders" where they occur in an appropriation bill as well as being empowered to cut out single appropriations without destroying an entire supply bill, the funds in which are appropriated for carrying on the business of a great department of the Government.

He reiterated his belief to-day that the adoption of such a constitutional amendment would be of immense value in the drive for economy and says that when the public understands the importance of the matter sentiment will be sufficiently strong in his favor to obtain ratification by the necessary two-thirds of the State Legislatures.

171 OF RELIGIOUS SECT KILLED BY CAPE POLICE

New Native Body Refused to Leave Africa.

CAPE TOWN, July 9.—A native religious sect which calls itself the "Israelites," under a "prophet" named Enoch, who refused to evacuate Government land at Bulhoek, near Queenstown, Cape Colony, has been forcibly ejected, losing 171 killed and 126 wounded in a fight with mounted Cape police.

For some years the Government had permitted the "Israelites" to celebrate "Passover" on a common, but each year a growing number of pilgrims remained behind on what they called "holy ground" until a village of some 350 huts had sprung up. The sect forbade anybody to enter the village, or to recognize any authority except orders from "Jehovah, the God of Israel," as interpreted by Enoch the prophet.

The Government some time ago endeavored to register the settlement, but the police were obliged to withdraw to avoid bloodshed. Peaceful efforts by the Secretary for Native Affairs and others to induce the "Israelites" to withdraw failed. They steadfastly refused to go.

Finally a force of 800 mounted police moved from Queenstown to demand the surrender of the village. With shouts of "Jehovah says we must fight," 4,000 natives charged the police with swords and assegais, the women joining the men with wild religious chants. The police let them come on until within 30 yards and then fired, with the result stated. Thereupon the prophet Enoch surrendered, and the village is to be demolished.

The affair has caused some stir in the Cape House of Assembly. Premier Smuts declared that in view of the natives' obstinacy there was no other way to make them understand that they must obey the law.

BOUCK WHITE CALLED TO DEFEND WIFE'S SUIT

Special Dispatch to THE NEW YORK HERALD.

POUGHKEEPSIE, July 9.—The annual action of Emilie Andreos Simon White against Charles Bouck White was set down to-day for a hearing next Saturday by Supreme Court Justice Morchauer. A subpoena was issued at the request of Bernard Cecere, attorney for Mrs. White, for Bouck White to appear next Saturday, when he will be allowed to testify.

White has tried to hire a hall at Marlboro to tell the natives his side of the case, but he has been unsuccessful owing to the sympathy for the wife.

COLLEGE PRESIDENT REFUSED TO EVICT OWL

Bird Menaced Life of Oak on Campus.

STANFORD UNIVERSITY, July 9.—It's a wise owl that strikes up an acquaintance with a university president. But for several months the life of one of the oldest oak trees on the Stanford campus has rested on the will of the persistent little owl that had taken up its abode in the partially hollow trunk.

All the gardeners and experts looked at the fine old oak tree that stands right before President Wilbur's residence and declared that the trunk must be sealed immediately if the life of the oak were to be saved. But all their arguments failed to impress Dr. Wilbur.

To all their reasoning he simply remarked: "The owl was in the tree before you wanted to fix it, and so long as that owl wants to live there you will leave the tree alone."

And they did. Last week, however, the feathered resident departed and has not been seen since, and now the gardeners can have their own way and save the life of the tree.

CHICAGO AROUSED BY EINSTEIN'S CHARGES

Women Indignant, Men Agree That Fair Sex Dominate America.

Special Dispatch to THE NEW YORK HERALD.

CHICAGO, July 9.—Prof. Einstein's opinions of America as quoted in cable despatches received here to-day met with a violent protest. Chicago women were indignant at the charge against them. Chicago men seemed to agree with Prof. Einstein on the dominance of women and that American men were the "toy dogs" of American women.

"Perfectly ridiculous," said Mrs. Frederick D. Countiss, Chicago's leading clubwoman. "The professor must have met a bunch of movie actors when he was over here. If the American men make more money than other men, it is because they are more successful in business. I think the right kind of an American is the strongest character in the world."

"I cannot agree with Prof. Einstein," said Mrs. Jacob Bauer, suffragist. "Women have the vote and men are women's equals. Einstein is a theorist. Time will prove this assertion. I have been surprised beyond measure at the interest it has attracted. Although the first announcement of my proposal was made in THE NEW YORK HERALD, I find that it must have been copied widely in other papers in various parts of the country, for I have received letters from practically every section commending it and urging its submission to the people."

"The authors of these letters have been men from many different walks of life, including doctors, lawyers, college professors and business men."

Senator Kenyon is not yet prepared, he said, to make public the text of these letters, although he may give some of them out later for publication. He finds a strong sentiment among lawyers, he said, in favor of empowering the President to veto "legislative riders" in appropriation bills as well as authorizing the Executive to veto single items of appropriations.

The practice of adding these legislative "riders" greatly adds, it is contended, to the difficulty of finding where the law is and what it is. It complicates the adjustment of many legal questions, it is said, for the reason that the inclusion in an appropriation bill of an important statute, in many instances conceals the fact that such a law is on the statute books.

Senator Kenyon is thoroughly convinced that his amendment should be so drafted as to give to the President the right to veto these "riders" where they occur in an appropriation bill as well as being empowered to cut out single appropriations without destroying an entire supply bill, the funds in which are appropriated for carrying on the business of a great department of the Government.

He reiterated his belief to-day that the adoption of such a constitutional amendment would be of immense value in the drive for economy and says that when the public understands the importance of the matter sentiment will be sufficiently strong in his favor to obtain ratification by the necessary two-thirds of the State Legislatures.

ELABORATE PLANS FOR TOKIO'S PEACE SHOW

Americans Invited to Exhibit Next Spring.

From the East and West News. The Tokio Peace Exhibition, to be held next spring will be the largest exhibition ever held in Japan. The exhibition will include among its exhibits almost all branches of production, material and spiritual. For convenience exhibits will be divided into seventeen departments: Agriculture, aquatic industry, mechanical, chemical and mining industries will be among the foremost of these. Besides education and liberal arts, fine arts, public health and social work departments will form the most interesting parts of the exhibition.

For the convenience of American firms desiring to place exhibits the following resume of the regulations governing foreign exhibits is given:

Foreign wars are to be exhibited in the Foreign Building. Application for space for exhibits shall be made in accordance with the following regulations: Application papers stating the name, place of production, quantity, price and display space for each exhibit, with the name, nationality and address of the exhibitor, should be sent to the Tokio Peace Exhibition Office, Tokio, Japan, on or before October 31, 1921.

Exhibitors not residing in Tokio-fu shall appoint a resident in Tokio-fu as their representative, who shall enter both the name and address in the application papers and lists of exhibits, accompanied by a power of attorney stating the matters entrusted therein.

Those who obtain permission to exhibit shall forward a list of their exhibits on or before January 31, 1922.

The sole commission charged by the managers of the exhibition will be 7 per cent of the contract price. The proceeds of the contract sales shall be given to the exhibitors after the close of the exhibition.

Foreign exhibits are not examined and will not be awarded medals.

"EGGS IS BUGS" A little egg—you can't see it until it becomes a little bug. A little leg—you can't see it, but it carries a million germs. A little bug—you can't see it, but it kills the bug and the life of the egg. It is our wonderful process of vaporization that makes homes SPOTLESSLY CLEAN.

Do the wise thing—Phone or write us now. Booklet "In the Spotlight" solves your vermin problems. Free.
